Profile Summary

I am a Dedicated Computer Science Engineering student with strong skills in Python, C, C++, and a passion for solving complex problems. Experienced in Mobile/Android development, web development, and software engineering using Kotlin, HTML, CSS, JavaScript, and data structures. Actively seeking internship opportunities to apply knowledge and grow professionally. Let's collaborate and innovate!

Education

CMR Technical Campus (Autonomous Engineering College)	Hyderabad, India
Bachelor of Technology - BTech, CSE AI ML CGPA: 8.0 / 10.0	11/2022 - Present
Jawahar Navodaya Vidyalaya	Prakasam, Andhra Pradesh
Intermediate, MPC Percentage: 62 / 100	07/2020 - 03/2022
Jawahar Navodaya Vidyalaya	Prakasam, Andhra Pradesh
Board of Secondary Education Percentage: 66 / 100	07/2019 - 03/2022

Skills

Programming Languages: C | C++ | Java

Fronted Skills: HTML | CSS | Java Script | ReactJS |

Backend Technologies: Fast API | Django | NodeJS

Data Structures & Algorithms | OOPS

Soft Skills: Problem solving | Communication skills | Analytical skills

Projects

Generative AI Chat Bot

- Generative AI chatbot using OpenAI, Lang Chain, and Gradio. Leveraging these technologies to create dynamic, conversational models with advanced capabilities.
- Integrating seamless user interfaces and efficient model management for real-time applications.

Sentimental Analysis of Product Review

- Developed a Sentiment Analysis model for product reviews, using NLP techniques to classify feedback as positive, negative, or neutral.
- Analyzed customer sentiments to drive insights for product improvement and business decisions.

Static Webpage of Tourist Places

- Built a static webpage showcasing tourist destinations, utilizing HTML, CSS, and JavaScript for a responsive, user-friendly interface.
- Designed to provide detailed information and visuals for popular travel spots.

Certifications

Google Cloud Career Launchpad Certificate — A course completion certificate on Data Analyst track.

AICTE - Android Developer — A certificate for successfully completing the Android Developer virtual internship.

AICTE- Google Virtual AI & ML — AI focuses on simulating human intelligence, while ML enables systems to improve from experience.
